

## Case Inquiries

**Q:** Exhibit 7: Both Glocks are identified as 9 mm, even though there are two .380 auto cartridge cases and slugs. This looks like a typo, and one of the Glocks should be a .380 auto.

**A:** The case problem is correct.

**Q:** Exhibit 8 is not signed by either Seastress or the sheriff. Because it is signed by the judge, and the exhibit is on the stipulated list, the missing signatures appear to be an oversight.

**A:** See stipulation number one.

**Q:** There are lots of issues about dates on the Exhibits. The trial statements have the shootings happening on March 6, 2009, (and so does Exhibit 4).

BUT Exhibit 2 about the shootings says it was published December 2004 AND Exhibit 7 says the report date on the top right of the exhibit says 11/05/04.

**A:** See revised exhibit

**Q.** Both have dates that say 2004. Exhibit 7 at top right "Report Date: 11/05/04; exhibit 2 at bottom: "December 2004." My guess is these were from a previous publication of this case?

**A:** See revised exhibit
